| ASPIRE Developer Days 22-end of month | Run Extract for 15 th - 21 st of Previous 3 Months* | Run SSIS Package** | | |

Feedback emails will be sent on the 24th of each month.

An annual lab pull should be performed to ensure extraction of labs occurring up to 365 days post op. (For example, patients with cases in 2014 would have labs pulled in January 2016.)

* Extracts (and the SSIS package for Epic sites) can be run daily on days 6,36, and 66 days ago instead of on a weekly schedule.

** SSIS Package and Update of MPOG Concepts in Clarity are for EPIC sites only.
